

SNOPAC MEMORANDUM

Date: December 1st, 2015

To: Mayor Jerry Smith, SNOCOM Board Chair

From: A/C Steve Guptill, SNOPAC Board Chair

Dear Chair Smith,

Thank you for your letter dated 11/5/2015 regarding the SNOCOM Board's desire to review the recommendation of Part 3 of the Matrix Report. Like you, we too have received several letters in support of PSAP consolidation and concur that there is a very meaningful opportunity to consider improvements to service delivery and significant cost saving. These letters send strong messages from our collective user agencies on the importance they place on this effort. It is incumbent on us to continue our history of collaboration and partnership in the evaluation of PSAP consolidation and we welcome the opportunity.

We truly value the partnerships, collaboration and cooperation we continue to experience throughout our shared endeavors and see this as one more. The success of the New World System implementation is an example of our collective hard work and we are grateful for the leadership provided by the SNOCOM Board which allowed this to happen.

During our November 19th meeting the Board discussed your letter and agree to join SNOCOM in further exploration of the Matrix Study – Part3. We thank you for the offer and have begun establishing a similar work group which will be prepared to engage in this important discussion early next month. We are prepared to schedule our first meeting and have charged Director Mills with coordinating that effort on behalf of the SNOPAC Board.

Yours Truly,

A handwritten signature in black ink, appearing to read "Steve Guptill".

A/C Steve Guptill
SNOPAC Board Chair
